#### IV. EVALUATION POLICY

**The teacher's policy regarding the student.** The educational process and control of its results is carried out in accordance with the Regulation on the current and final evaluation of the students' knowledge at Lesya Ukrainka Volyn National University.

The specificity of teaching AC is the use of two types of control: current and final. Current control includes tasks such as writing papers and essays, surveys, performing exercises, translations, work in pairs and small groups, leading a discussion, composing dialogues, performing additional current and test tasks on the online platform Office 365 in the Teams team. Such forms of control allow the teacher to check the level of students' training, the ability to process, assimilate and operate the studied material. It helps to check the ability to answer the given questions logically and consistently, to solve various educational tasks, to check the ability of students to process a certain amount of educational material independently, separating the main and secondary information, ask questions and discuss new material with other participants in the educational process.

When studying the AC *Translation Practice (during the semester)*, the student performs the following types of work: working with theoretical material, developing speaking, writing, listening, translation skills in the main language, preparing projects and presentations, abstracting articles on the topic being studied, writing tests. Students master topics and perform tasks according to the stages and terms specified in the syllabus.

**Academic Integrity Policy.** While learning, teaching and carrying out scientific activities, participants of the educational process should be guided by the rules defined by law, observe educational ethics and academic integrity, as well as time limits and limits of the educational process, treat others tolerantly. In order to ensure confidence in the learning results, it is strictly forbidden to write off during tests or exams. All written works performed by a student in the presence of doubts about academic integrity can be checked with the help of anti-plagiarism systems. Observance of academic integrity by students involves:

- independent performance of current and final control tasks;
- references to sources of information in case of use of ideas, findings, statements, information;
- compliance with the legislation on copyright and related rights;
- provision of reliable information about the results of one's own educational (scientific, creative) activities, used research methods and sources of information.

Any form of academic integrity breach will not be tolerated. The main types of responsibility of education seekers for violation of academic integrity (Part 6 of Article 42 of the Law of Ukraine On Education):

- repeated assessment (test, exam, credit, etc.);
- repeating the relevant educational component of the educational program;
- expulsion from the university (except for persons who obtain a general secondary education);
- academic integrity deprivation of an academic scholarship;
- academic integrity deprivation of tuition benefits provided by the university.

The general principles, values, principles and rules of ethical behavior of the participants of the educational process can be found in the Code of Academic Integrity of Lesya Ukrainka Volyn National University.

**Deadlines and retaking policy.** A student's absence from class during the preparation of projects, writing test and control papers, essays without a valid reason is assessed as «0» points. If there is an objective reason for the absence, which is documented, the student has the right to rewrite a test, a test, an essay or prepare a presentation outside of class time and pay the debt within a week from the day of returning to studies. All tasks must be completed within the set time. Works submitted in violation of the deadlines set by the teacher will be given a lower grade (-10% of the grade).

## V. FINAL CONTROL

The form of the final semester control from this OC is a credit.

Current control is carried out during consultations and is aimed at checking the completion of a specific task by the student. Current control is implemented in various forms, in particular during the verification of the results of tasks, preparation and defense of projects, presentations, conducting excursions, defense of practical materials. The grade is issued based on the results of current work, provided that the student has completed the types of educational work specified in the AC syllabus. If the student did not attend classroom classes (for valid reasons), he has the right to work through the missed classes and get the number of points that were determined for the missed topics at the consultations. The maximum comprehensive assessment of knowledge is carried out by the teacher on a 100-point scale (20 points for each content module)  $20 \times 4 = 80$  and 20 points for the preparation of the Translation Practice report and its defense. That is, as a result, a student can receive 100 points for the entire practice (Table *Grades Distribution*). On the date of the assessment, the teacher records in the report the amount of current points that the student scored during the current work (scale from 0 to 100 points).

In the event that the student has scored less than 60 points, he makes a credit during the liquidation of academic debt. In this case, all points scored during the current assessment is cancelled. The maximum number of points during the liquidation of academic debt from credit is 100.
