#### IV. EVALUATION POLICY

**The teacher's policy regarding the student.** The educational process and control of its results is carried out in accordance with the Regulation on the current and final evaluation of the students' knowledge at Lesya Ukrainka Volyn National University.

The specifics of teaching AC *Second Foreign Language (English)* is the use of two types of control: current and final. Current control includes tasks such as writing tests and essays, surveys, doing exercises, working in pairs and small groups, leading a discussion, composing dialogues, performing

additional test tasks on the online platform Office 365 in Teams. Such forms of control allow the instructor to check the level of students' preparation for each lesson, the ability to process, assimilate and operate the studied material, the ability to answer the questions logically and consistently, to solve various educational tasks, to check the ability of students to process a certain amount of educational material independently. As well as it allows checking the skill to highlight the main and secondary information, ask questions and discuss new material with other participants in the educational process.

When studying the OC *First Foreign Language (English)* the student performs the following types of work: studying lexical and grammatical material, working on the development of speaking, writing and listening skills in the main language, preparing projects and presentations, abstracting an article on the topic being studied, writing tests and an oral exam. Students master topics and perform tasks according to the stages and terms specified in the syllabus. The students may be credited with learning results obtained in formal, informal and/or informal education (professional (specialist) courses/trainings, civic education, online education, internships).

**Academic Integrity Policy.** While learning, teaching and carrying out scientific activities, participants of the educational process should be guided by the rules defined by law, observe educational ethics and academic integrity, as well as time limits and limits of the educational process, treat others tolerantly. In order to ensure confidence in the learning results, it is strictly forbidden to write off during tests or exams. All written works performed by a student in the presence of doubts about academic integrity can be checked with the help of anti-plagiarism systems. Observance of academic integrity by students involves:

- independent performance of current and final control tasks;
- references to sources of information in case of use of ideas, findings, statements, information;
- compliance with the legislation on copyright and related rights;
- provision of reliable information about the results of one's own educational (scientific, creative) activities, used research methods and sources of information.

Any form of academic integrity breach will not be tolerated. The main types of responsibility of education seekers for violation of academic integrity (Part 6 of Article 42 of the Law of Ukraine On Education):

- repeated assessment (test, exam, credit, etc.);
- repeating the relevant educational component of the educational program;
- expulsion from the university (except for persons who obtain a general secondary education);
- academic integrity deprivation of an academic scholarship;
- academic integrity deprivation of tuition benefits provided by the university.

The general principles, values, principles and rules of ethical behavior of the participants of the educational process can be found in the Code of Academic Integrity of Lesya Ukrainka Volyn National University.

**Deadlines and retaking policy.** A student's absence from class during the preparation of projects, writing test and control papers, essays without a valid reason is assessed as «0» points. If there is an objective reason for the absence, which is documented, the student has the right to rewrite a test, a test, an essay or prepare a presentation outside of class time and pay the debt within a week from the day of returning to studies. All tasks must be completed within the set time. Works submitted in violation of the deadlines set by the teacher will be given a lower grade (-10% of the grade).

## V. FINAL CONTROL

The form of final semester control in this discipline is a credit and an exam. The course *First Foreign Language (English)* contains six credits. Final control is a credit in the 1st, 3rd, and 5th semesters and an exam – in the 2nd, 4th, and 6th semesters. Components of credit are modules that reflect all forms of the student's educational workload. The current evaluation of students' knowledge is carried out according to a five-point system and includes evaluation of students' work during classroom classes for oral and written answers, writing dictations, performing translations, doing tests, various types of tasks, and participation in discussions.

Credit is given based on the results of current work in a case when the student has completed the types of educational work specified in the AC syllabus. If the student did not attend classes (for valid reasons), she/he has the right to work through the missed classes and get the number of points that were determined for the missed topics at the consultations. The maximum number of points is calculated as the arithmetic average of all points for oral and written answers in classroom classes (from 0 to 5 points), while the average point is multiplied by a factor of 20 ( $20 \times 5 = 100$ ). The instructor carries out comprehensive assessment of knowledge by on a 100-point scale. On the date of the credit, the teacher records the amount of total grades that the student scored during the current work (scale from 0 to 100

points). In the event when the student scored less than 60 points, he retakes a credit during the liquidation of academic debt. In this case, the grades scored during the current assessment are cancelled. The maximum number of points during the liquidation of academic credit is 100.

The maximum number of points for the current control is 40 points, if the form of the final control is an exam. The maximum number of points is calculated as the arithmetic mean of all points for oral and written answers in classroom classes (from 0 to 5 points), while the average point is multiplied by a factor of 8 ( $8 \times 5 = 40$ ). The maximum number of points for the current test is 40, for the final test (writing modular test papers) - 60. The comprehensive assessment of knowledge is carried out by the teacher on a 100-point scale.

- The grade «excellent» corresponds to 5 points for oral answers in classroom classes, writing written works (dictations, translations, tasks, exercises) and is given for broad and systematic knowledge of theoretical and practical material from a second foreign language.

- The grade «good» corresponds to 4 points for oral answers in classroom classes and writing written works (dictations, translations, tasks, exercises) and is given for good knowledge of theoretical and practical material from a second foreign language.

- The grade «satisfactory» corresponds to 3 points for oral answers in classroom classes and writing written works (dictations, translations, tasks, exercises) and is given for basic knowledge of theoretical and practical material from a second foreign language.

- The grade «unsatisfactory» corresponds to 0-2 points for oral answers in classroom classes and writing written works (dictations, translations, tasks, exercises) and is given in case of failure to complete practical tasks and lack of knowledge of theoretical material from the first foreign language.

Students are expected to attend all classes. In case of absence from the class or failure to perform one of the types of mandatory work on the topic, the student receives «0» points for the uncompleted type of work. Assignments that are submitted late without good reason are assigned a lower grade. In case of a good reason, the student can retake the topic/module during the consultations.

The teacher issues a final grade without taking an exam based on the results of current and module control if the student has successfully completed all the tasks provided by the programme of the academic discipline and received at least 75 points. Such a grade is issued on the day of the exam. Presence of the student is mandatory. The student must take the exam if he scored less than 75 points during the semester, or if he wants to improve his result. The final semester grade in the case of taking an exam is defined as the sum of the current semester and exam grades in points without taking into account module control tests. Exam cards are approved at the meeting of the Foreign Languages and Translation Department every semester.

When setting the final grade, the student's presence and activity in classes must be taken into account. The terms of final control, liquidation of academic debt are determined by the schedule of the credit and examination session. Retaking credits and exams in the case of receiving an unsatisfactory grade is allowed no more than twice for each academic component: once by the instructor, the second time by the commission created by the dean of the Faculty.
