Organization of information security and information protection	12	2	2			8	D /5 DB /5
Total for Content Module 1	46	4	10	4		28	50
Content Module 2. Practice of IT Implementation in the International System							
Use and organization of databases and data warehouses	10	0	2	0		8	D /5 DB /5
Creation and use of automated workplaces in international activities	12	2	2	2		6	D /5 DB /5
Network technologies as the main method of electronic diplomacy	12	0	4	0		8	D /5 II/5 DB /5 E/5
Fundamentals of information security in international relations	10	0	2	0		8	D/5 DB /5
Total for Content Module 2	44	2	10	2		30	50
Total hours	90	6	20	6		58	100

Control methods:* D – discussion, DB – debate, T – tests, TR – training, TM/C – tasks management /cases, INDV/ISW – individual task/ individual work of the higher education student, SGW – small groups work, MTP/TP – module test paper/ test paper, E – essay, as well as an analytical note, an analytical essay, an analysis of a work, etc, P - presentation.

5. TASKS FOR INDEPENDENT WORK

Topics	Hours
The essence of the concept of information environment and the problem of its scientific definition.	2
Problems of introduction of information environment in international relations.	2
Types of information systems in the MV system.	2
Types of information processes.	2
Typology and application of information systems.	2

Application of specific information processes.	2
The specifics of the functioning of information systems.	4
Information provision of international relations.	4
Types of information threats.	4
The specifics of the functioning of information protection systems.	4
Use of specific databases.	4
Types and characteristics of data warehouses.	2
Methods of implementing information collection and processing in the information storage system.	2
Types of automated workplaces in the MV system.	2
Software problems of automated workplaces in the specifics of MV.	4
Historical aspect of the implementation of electronic diplomacy.	4
Network technologies as the basis of modern diplomacy.	4
The specifics of the introduction of a unified information system of the EU countries and threats to its use.	4
Legal regulation of the use of electronic circulation of information and its legal protection.	4
Total	58

6. EVALUATION POLICY

Evaluation during laboratory classes is based on the extent to which the applicant is able to independently analyze and transfer the acquired knowledge, re-reading information from the sheet is prohibited. References to used materials and resources are mandatory, and each applicant is personally responsible for academic integrity. Missed lecture classes are not made up, laboratory classes can be made up only if there are compelling reasons for the student's absence. The deadline for passing the missed classes (provided there are good evidentiary reasons) before the day of passing the test. The maximum number of missing classes without good evidentiary reasons is 2. Zero tolerance for cheating.

7. FINAL CONTROL

The form of the final semester control for this educational component is a credit. Credit is issued on the condition that the applicant has completed all types of educational work specified in the syllabus and received at least 60 points. In this case, tasks from these types of current control are evaluated in the range from 0 to 100 points. The minimum positive number of points is 60. The student can additionally take the topics he missed during the semester (for valid reasons) in consultation with the teacher, thus improving his result by exactly the amount of points allocated to the missed topics. In the event that the student of education scored less than 60 points, he makes a credit during the liquidation of academic debt. In this case, the points scored during the current assessment are cancelled. The maximum number of points during the liquidation of academic debt from a test is 100. Re-taking of tests, in case of receiving an unsatisfactory grade, is allowed no more than twice from each educational component: once to the teacher, the second time to the commission

created by the dean of the faculty.

8. GRADING SCALE

Scores	Linguistic Grade
90-100	Passed
82-89	
75-81	
67-74	
60-66	
1-59	Fail (needed to retake)
